PROFILE

Age   22

Nationality   Thai

EDUCATION

Mae Fah Luang University

School : Information Technology

Major : Computer Engineering

Since 2019 - 2023

OBJECTTIVE

This company is quite famous in the IT field and has a lot of experienced people. Therefore, I would like to apply for a job as a full stack developer and join this company, hoping to continue developing myself and the company.

ABOUT ME

I chose full stack developer. Because I think this is the best I can do. It always gives me new and creative ideas. Because it requires a fair amount of coding skills, I have to be thorough for the best results. I am always ready to improve myself, update my knowledge and practice doing projects to improve my skills.

SKILL

JavaScript	TypeScript	Node.js
MongoDB	RESTful API	Git&GitHub
React	Angular	Vue
SASS	Bootstrap	Figma

EXPERIENCE & PROJECT

2023	MERN Stack Project
2023	Internship Position Web Developer
2021	Web Requests Project

Portfolio
